117 L FILE
4/29/59

DRAFT

In accordance with the latest security guidance received from Hq AFEMD on Project Sentry, the following criteria has been established for review of RADC files:

1. Top Secret aspects of Project Sentry are as follows:
 - a. All programming and planning for initial operational capability.
 - b. The identity and all reference to the eventual using command.
 - c. The date by which an operational capability will exist.
 - d. The date by which R&D versions of the Sentry effort will be capable of collecting useful information or have collected useful information.
2. Anything that was initiated prior to 24 Jan that meets the above top secret criteria need not be upgraded to Top Secret but, from now on must be handled as Top Secret.
3. Anything that is or has been generated as of 24 Jan 1959 and meets the Top Secret criteria shall be classified as Top Secret.
4. An exception to paragraph 2 above is as follows:
 - a. The operational annex to the 15 Dec 58 Development Plan shall be upgraded to Top Secret.
